Remel Announces Availability of New and Improved Dilution Bottles

January 30, 2007 - Remel is pleased to announce the availability of new and improved dilution bottles. These new bottles feature an improved bottle design with a tear-away, tamper-evident sterility strip integrated into the cap. The cap is much easier to open compared to bottles utilizing shrink wrap seals, which is especially important when wearing gloves. The caps are also color coded for easy and accurate visual identification. The bottles are clear, making visual inspection easier, and they have an extended expiration date, two years from the date of manufacture. Available in Phosphate Butterfield's formulation (90ml, 99ml) for Food, Dairy and Pharmaceutical testing as referenced in AOAC, APHA, FDA, USDA, and USP test methods and in Phosphate Magnesium Chloride formulation (90ml, 99ml) for Water and Wastewater testing as referenced in APHA & EPA test methods. For more information or to arrange a product evaluation, contact marketing@remel.com.

About Remel

Remel is part of Thermo Fisher Scientific Inc., and is a global provider of a wide range of high quality microbiology products used by clinical, industrial, research and academic laboratories. Remel is a world leader in the manufacture and distribution of dehydrated and prepared culture media, collection and transport systems, diagnostic and rapid direct specimen tests, quality control products and much more. An extensive product portfolio, which includes trusted, market leading brand names, and superior product performance, is complemented by a team of experts dedicated to providing the highest levels of technical support and customer service. For more information about Remel or its products, visit www.remel.com or call 800-255-6730.

About Thermo Fisher Scientific

Thermo Fisher Scientific Inc. (NYSE: TMO) is the world leader in serving science, enabling our customers to make the world healthier, cleaner and safer. With annual sales of more than \$9 billion, we employ 30,000 people and serve over 350,000 customers within pharmaceutical and biotech companies, hospitals and clinical diagnostic labs, universities, research institutions, and government agencies, as well as environmental and industrial process control settings. Serving customers through two premier brands, Thermo Scientific and Fisher Scientific, we help solve analytical challenges from routine testing to complex research and discovery. Thermo Scientific offers customers a complete range of high-end analytical instruments as well as laboratory equipment, software, services, consumables and reagents to enable integrated laboratory workflow solutions. Fisher Scientific provides a complete portfolio of laboratory equipment, chemicals, supplies and services used in healthcare, scientific research, safety and education. Together, we offer the most convenient purchasing options to customers and continuously advance our technologies to accelerate the pace of scientific discovery, enhance value for customers and fuel growth for shareholders and employees alike.
